Surya Prakash Software Developer

suryaprakash.software@gmail.com 6369126670 linkedin.com/in/suryaprakashperumal5303 Bangalore, India

Professional Summary

Software Engineer with 2 years of experience in scalable front-end development, specializing in React.js, Next.js, and user-focused applications. Currently working at Tata Consultancy Services as an Oracle JD Edwards Developer and AI Developer, supporting retail analytics and enterprise systems. Skilled in building end-to-end AI-powered solutions using LLMs, RAG pipelines, Agentic AI, and automation workflows.

Work Experience

AI Developer & Oracle JDE RDA Developer, *Tata Consultancy Services* 09/2024 – Present | Bangalore, India
▸Developed a **Python-based AI reconciliation pipeline** using Gemini 2.5 Flash and Google Vertex AI, automating retail sales validation across **70+ UAE stores**, supporting **20 document types and ~20 business-rule checks**.
▸ Engineered **AI-powered** document extraction, transaction matching, and exception detection with structured **JSON outputs**, targeting **80% less manual effort, 5× faster processing, and a projected 3 FTE reduction**.
▸ Developed and optimized Oracle JD Edwards RDA reports using Business Views, data selection, sequencing, event rules, and system functions, streamlining enterprise retail reporting and financial operations.

Technical Skills

Languages
Python, Java, JavaScript

Frameworks
React JS, Next JS, LangChain, LangGraph, Google ADK, FastAPI

Database
SQL, PostgreSQL, Supabase DB

Tools
Oracle JD Edwards Enterprise 9.1, REST API, n8n AI Agent Automation, RAG , Git, Postman

Projects

CMARCPS – Conversational Multi-Agent Retail Customer Personalization System, *AI Friday Regional Final Round* 08/2026
- Developed an AI-powered retail personalization system using LangGraph, LLMs, and Multi-Agent AI, integrating MCP, Hybrid RAG, and Neo4j Knowledge Graphs for intelligent information retrieval and context-aware customer experiences
- Implemented Machine Learning models for customer churn prediction and purchase propensity analysis, incorporating AI guardrails, privacy controls, and role-based data access.

AI-Powered Sustainability & Circularity Compliance Verification 03/2026
- Built a compliance verification platform using Next.js, FastAPI, LLMs, Agentic AI, RAG, and vector databases to automate sustainability assessments.
- Developed intelligent document analysis and conversational AI that provide real-time compliance insights and sustainability verification support.

n8n AI RAG Chatbot 12/2025
- Developed an agentic RAG-based AI chatbot using the n8n platform integrated with Gemini and OpenAI APIs.
- Enabled company knowledge analysis to support project planning and internal decision-making.
- Integrated the chatbot into a corporate website for intelligent, context-aware responses.

Real Estate Front-End Application, *Private Project*
- Built a scalable Next.js application with lead generation, agent, buyer, and seller modules.
- Integrated REST APIs for data retrieval, form submissions, and business workflows with a focus on responsive UI and performance.

AnimaCorpus Front-End Platform, *Private Project*
- Developed a Next.js front-end with chatbot integration and therapist/patient management modules.
- Consumed REST APIs to handle user data, sessions, and workflows while delivering a user-centric interface.

ACHIEVEMENTS & AWARDS

Runner-Up – TCS AI Friday Season 2, *Tata Consultancy Services* Bangalore
- Developed an AI-powered sustainability and circularity compliance verification platform using Agentic AI, LLMs, RAG, FastAPI, and Next.js.
- Built intelligent document analysis and conversational AI capabilities to automate compliance validation and deliver real-time recommendations.

Certificate of Appreciation – Retail UK, EMEA & India Unit, *Tata Consultancy Services* Bangalore
- Recognized by the Unit Head, Abhijit Niyogi, during the TCS Town Hall for valuable contributions to AI initiatives and organizational activities.
- Awarded a Certificate of Appreciation for active involvement, innovation, and contributions to the Retail UK, EMEA & India Unit.

Education

B.Tech – Information Technology, *SRM Institute of Science and Technology* 09/2020 – 05/2024 | Chennai
CGPA: 9.40
